INFO+: Same as the wide-opening toggle clamps shown on page 468, except with our unique safety-lock feature. This safety lock automatically engages when the clamp is closed, then remains locked until manually disengaged by pressing the handle. This prevents the clamp from being accidentally opened by bumping the handle.

Choose either a solid arm, or a long open arm for spindle adjustment. Arm opens 117° while handle moves 69°. Supplied with 1/4-20 short flat-cushion spindle CL-14112-FC. Open-arm version supplied with (2) CL-148-TW flanged washers. Shipping weight 0.4 lbs.
